EDUCATION

Vellore Institute of Technology, Vellore

Bachelor of Technology in Computer Science and Engineering

CGPA: 9.09

2022 – 2026

EXPERIENCE

SDE INTERN — Target India (Target Corporation, USA)

Feb 2026 – Apr 2026

- Engineered backend services for Registry features on a high-scale e-commerce platform serving millions of users.
- Built scalable microservices for Registry functionality using **Spring Boot, Java, Kafka, MCP and Cassandra** enabling high-throughput API processing and reliable data flow.
- Built **Target Connect**, an internal platform for workspace sharing and employee engagement, used by **1,500+ employees**, improving collaboration and supporting scalable team coordination.

PROJECTS

VITPaperVault

- Built a scalable academic platform serving **35,000+ students** with **1.05M+ requests** and 99.8% uptime.
- Identified a gap in student access to exam materials and designed a centralized solution for real-time availability.
- Architected scalable backend systems using Node.js and MySQL, applying system design principles.
- Led and managed **60+ contributors**, scaling the platform to host **1200+ exam papers** with **500K+ visits**.
- Technologies:** React.js, Node.js, Express.js, MySQL, AWS, Cloudflare, REST APIs, JWT Authentication, Git

PayAnalytics

- Developed an AI-driven analytics platform for medical wholesale businesses to assess financial risk and customer behavior using transactional data.
- Performed data analysis to uncover trends in billing patterns, including purchase frequency, profit/loss margins, and customer payment behavior.
- Designed a structured data processing workflow to generate actionable insights and improve decision-making in financial operations.
- Technologies:** SpringBoot, React.js, Python, MySQL, LLMs, MCP

TECHNICAL SKILLS

Programming Languages: Java, C++, Python, SQL

Backend Technologies: Node.js, Spring Boot, REST APIs

Frontend Technologies: React.js, HTML, CSS

Databases: MySQL, MongoDB, Cassandra, Database Design

Cloud & DevOps: AWS, Docker, CI/CD Pipelines, Cloudflare, Git, GitHub, GCP

Concepts: Microservices Architecture, System Design, Agile Methodology, Team Management

ACHIEVEMENTS

- Ranked among the **Top 5%** of students in B.Tech Computer Science at VIT Vellore.
- Built VITPaperVault and other platforms impacting **35,000+ students** with real-world usage.
- Secured **5th position** in a 72-hour GSDC (Google-powered) Hackathon among **1,000+ teams**.

CERTIFICATIONS

• **AWS Certified Solutions Architect Associate – Associate (AWS)**

- Validated expertise in designing scalable cloud architectures and implementing cost-effective solutions on AWS
